"To the Fore"- Captain's Report

On Thursday 19th July, the "Hickory Experience" was played out over 18 holes in a 4 ball ambrose at Royal Sydney with a regular Thursday group of some 24 RSGC members courtesy of GCSA member David Williams. Tom, Peter Read, Michael Skeret and myself were in attendance as the "experts" with hickories to help the members enjoy the experience. Players entered into the spirit of the event with adventurous outfits, one sporting a kilt and red-haired wig! Our own group shot a commendable 75 (39/36) on a shortened par 70 course, winning the event with 64.5 nett. At the 19th it was decided to make the day a fixture to be played each year on the Thursday of British Open week. The "Hickory Experience" has not only claimed a new group of enthusiasts but one was heard to ask "why do I use 460cc graphite drivers when I can hit a little hickory just as far?" Tom – there may be a market at RSGC for hickory drivers!

Tom and my dad are off to the Gold Coast in early Sept. (6-9) to wave the flag at Stand #2516 of the PGA Golf Show- drop in if you are in the vicinity. Volunteers will be needed to assist manning the "tent" at the Australian GC 13-16 Dec. during the Australian Open. Pop it in your diary now to come for at least a day – we could be on T.V. as the Howard family was represented in 1931 at the "Ozzie" when dad aged 18 made the first of a number of appearances in the Open. Also in the field was T.E. Howard (dad's father), who won in 1923. On that occasion son did not beat father and it also took me many years to finally beat "the old man".

Following positive comments on the books mentioned last edition, can I suggest two that I have just finished that are a great read about the "Wee Ice Mon". The first, written by James Dodson (author of Final Rounds – another good read) is "Ben Hogan, an American Life" and second "Hogan" written by Curt Sampson. Just loved one quip from Hogan's wife when Ben was lamenting privately on not winning due to his putting letting him down. She said "Just hit it closer dear".

And that ladies and gentlemen is my Thought of the month.

Best Regards,

Ross Howard.

RUST REMOVAL FROM IRON GOLF CLUB HEADS

1. Mix 50 gms Citric Acid with 10 gms Thiourea and 500mls warm water. *
2. Ensure the head is thoroughly de-greased with petroleum spirits.
3. Place the head in the mixture – Never place heads with different metals in the “bath” as electrolytic coating may occur.
4. Brush with cotton bud or soft brush every 5 mins. To remove surface deposits.
5. Leave for 1-24 hours (dep on extent of rust penetration) then rinse under running water for about 5 mins till neutral pH is reached (ie. No more acid)
6. De-water in Ethanol or Acetone.
7. Coat the head with microcrystalline wax (any furniture wax with a Turpentine base will do)
8. Now only handle the head with cotton gloves.

*The amount of water is not critical – you can make a stronger or weaker solution.

VALE - NORMAN VON NIDA

Sadly we said farewell to "The Von" on May 25th. Von died at his retirement village on the Gold Coast. He was one of Australia's finest golfers. Astute judges have told me in the years leading up to WW2 he was unbeatable. The 5 war years robbed him of what should have been his best years.

In 1946 he set sail for Britain and arrived with 17 pounds in his pocket, but he had an unshakeable confidence in his ability. That he set the golfing scene in Britain alight is the stuff of legends.

Von went on then to encourage our young guns to try their luck overseas and helped Bruce Crampton, Bruce Devlin, David Graham, Frank Phillips, Peter Thompson and Jack Newton.

Von was a keen supporter of our society and donated several items from his collection to our museum.
